# How We Help

## Medication Packaging

Our trained pharmacists prepare Single-Dose Blister Packs and Multi-Dose MedPacks that allow for simple and easy medication management. Here are some of the benefits:

- Convenient packaging in easy-to-use hygienic, disposable cards that can include over-the-counter (OTC) medications or supplements
- Medication synchronization including supplies that are refilled and delivered monthly
- Apothecare contacts payers and prescribers for refills so you don't have to

## Service You Can Trust

You can count on Apothecare to give you the support to best manage your pharmaceutical needs. Our personalized customer service features include:

- Pharmacists available for 24/7 support
- Flexible delivery services that include same-day delivery of new orders
- Access to medication records through our online WebConnect portal
- Easy-access online forms that allow you to refill prescriptions as well as submit intake forms, bill payments, and more
- Medication Administration Records, medications lists, and physician orders available upon request
- Prescription compounding services available for customized medications (i.e. dosage, creams, and gels)
