

### Services for Residential Programs

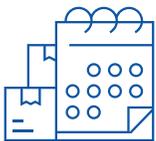

#### Medication Administration Services

##### MAP Compliance

We take pride in our reputation as one of the Commonwealth's largest "MAP-Friendly Pharmacies" and have full understanding of the regulations required. Services to aid in compliance include:

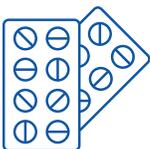

- Monthly Medication Administration Record (MARs) printing
- MAP trainer & MAP-certified staff on hand
- Check-ins and medication audits, including label changes

##### Refilling and Delivery

Our residential pharmacy services include 28-day cycle filling to ensure that re-orders are completed in a timely manner. As your trusted partner, we offer flexible delivery services that include same-day delivery of new orders.

Through our online Web Connect portal, you have the ability to keep track of your residents' medication records, allowing you to view medication profiles and refill lists in real time, as well as communicate with the pharmacy to update crucial information such as patient notes, allergy information, and medication changes.

##### Medication Packing

Our packaging options provide a clear alternative to bulky "pillow packs". We offer tamper-evident blister packaging and leave of absence (LOA) packaging compliant with state regulations (MAP policy).

Additionally, our pharmacists are fully trained and knowledgeable in a wide range of vaccine-preventable diseases, and the administration of the related vaccine.

# Who We Are

With over a decade of experience, Apothecare is a leading provider of specialized pharmacy services to residential care programs throughout Southern New England. We know you need more than just a pharmaceutical provider - you need a trustworthy partner whose foundation is built on personalized customer service so that you can focus on caring for your residents.

We understand that it is not always easy to stay abreast of prescription refills and medication delivery without an organized process. That's why we make it our priority to help you keep track of your medications, as well as make it easy for you to maintain MAP compliance.

## Service You Can Trust

### Access to Pharmacists 24/7

Apothecare is here when you need us with on-call pharmacists available for emergency delivery or consultation 24 hours per day, 7 days a week.

### State-Of-The-Art Facilities

Our state-of-the-art pharmacy is fully equipped for quick-turnaround of orders and specialty services such as prescription compounding.

### Free Reliable Delivery

We offer fast delivery 7 days a week to all of Southern New England including MA, RI, and CT. Same day delivery of all medications comes at no charge. Additionally, you can check the status of your delivery on our Web Connect portal at any time.

### Wide Range of Insurances Accepted

We accept most commercial insurance providers, as well as Medicare and Medicaid, making it easy for your team to integrate Apothecare into your programs. Our team also helps coordinate with insurance providers to ensure a smooth transition.

### Online Resources Database

Our website is your one-stop-shop for all your pharmaceutical needs including new client enrollment, bill pay, refill requests, LOA supply requests, and our Web Connect patient portal. We'll also set up an onboarding session and trainings to help your team know what tools will work best for their needs and how to best integrate them into your day-to-day.
